IMPORTANT INFORMATION

The attached literature describes the standard versions of our new Crossbar Type Selector Switch. We have capabilities of making many versions of this switch to meet your application requirements. We can supply a maximum of 50 sliders with 48 positions on each slider at nominal tool cost.

Additional variations in circuitry, panel size, panel nomenclature, and slider arrangements are also possible.

Like to see a sample? Simply fill in and mail attached reply card. No obligation, of course.

☒ Yes, I would like to see a sample Crossbar Type Selector

Switch - Model No. C10-20A.

☐ Specific application ☒ General Interest
